Weekly Manager Operations Checklist

A recurring rhythm for keeping the numbers, the team, and the guest experience on track.

Daily

- ☐ Review prior day's sales, labor %, and voids/comps
- ☐ Walk the floor and kitchen before service for cleanliness and readiness
- ☐ Confirm staffing matches the schedule; address call-outs early
- ☐ Check prep lists and par levels against expected volume
- ☐ Brief the team on specials, 86'd items, and any VIP/large reservations

Weekly

- ☐ Review weekly sales vs. forecast and prior-week comparison
- ☐ Check food cost % and labor cost % against targets
- ☐ Walk-in and dry storage inventory count
- ☐ Review guest feedback and any service recovery follow-ups
- ☐ Confirm next week's schedule is posted and covers peak periods
- ☐ Spot-check cleanliness: walk-in, line, restrooms, dining room

Monthly

- ☐ Full P&L; review against budget
- ☐ Deep-clean schedule review (hood, floors, equipment)
- ☐ Vendor pricing check for cost creep
- ☐ One-on-one check-ins with key team members
- ☐ Review and update prep guides, recipes, or training materials as needed

Use this as a starting framework — the exact cadence should flex to your volume, staffing structure, and current priorities.
